

14TH ANNUAL
**PEAK CYBER
SYMPOSIUM**

SEPTEMBER 11-12, 2024
ANTLERS HOTEL
COLORADO SPRINGS, CO

The Peak Cyber Symposium has established itself as one of the leading cybersecurity events in Colorado and the Front Range region over the past 14 years. In 2023, we successfully brought together over 700 attendees from across the nation, including military and government personnel, military contractors, SLEDs (State, Local, and Education), and esteemed professionals from the private sector. Hosted by the Information Systems Security Association (ISSA) - Colorado Springs Chapter (COS), Peak Cyber offers a valuable platform for exploring urgent cybersecurity threats, effective remediation strategies, and industry best practices. This is an exceptional opportunity to gain knowledge, foster collaboration, and expand your network by engaging in face-to-face interactions with experts in the field. Don't miss out on this invaluable experience.
